CAREER OBJECTIVES

Entry-level IT Support professional with a background in web development and hands-on internship experience in a government environment. Skilled in hardware and software troubleshooting, basic networking, and user technical support, with additional experience in developing database-driven web systems. CCNA and AWS certified, Dean's Lister, and Outstanding Practicum seeking an IT Support role with opportunities to assist in system and web-based solutions.

INTERNSHIP EXPERIENCE

City Government of Biñan	Web Developer and IT Support	04.2025 - 07.2025
I completed my internship where I developed a ticketing system for government employees requesting tarpaulins, providing technical support throughout system development and testing. I handled both front-end and back-end development, implemented a multi-user role system with four (4) distinct user roles, and managed system data using MySQL.		

PROJECTS

San Cristobal, Calamba Flood Management System	UI/UX and Back End Developer	01.2025 - 07.2025
Developed a flood management system integrating GIS, LiDAR, and remote sensing. Created an SCFMS Resident App with real-time flood alerts, mapping, and SOS functionality, Utilized Firebase for data storage and security.		
E-Commerce Ticketing System	Web Developer	03.2024 - 05.2024
Developed a movie ticketing system using ASP.NET (C#) with an MS Access (MDB) database, integrating ticket booking features and movie distributor management for organized movie listings and data handling.		

EDUCATION

Mapúa Malayan Colleges Laguna	Bachelor of Science in Information Technology	08.2021 - 11.2025
Bachelor of Science in Information Technology graduate from Mapúa Malayan Colleges Laguna. Consistent Dean's Lister (1st-2nd year) and recognized as Best Practicum of 2025 among IT students.		
Casa Del Niño Science High School	STEM Strand	03.2019 - 03.2021
Graduated with Honors from Casa Del Niño Science High School under the STEM strand.
