- HARD COPIES OF THIS FORM SHOULD BE COMPILED AS PART OF THE STUDENT'S PORTFOLIO.

DATE	June 2 2025 - June 6 2025	AREA ASSIGNMENT	ICTO
TASK	System Testing	SHIFT/TIME	8am to 5pm

Software Developement:

During Week 7, we focused on enhancing the user experience and fixing bugs in the Tarpaulin Ticketing System. We refined the Printer dashboard so that personnel can view only approved requests and mark them as Printed. We also improved the notification system to help Requestors track their request status more clearly.

Technical Documentation Skills:

We documented the changes made to the Printer dashboard and notification feature. We also updated the system flowchart to reflect these improvements and added notes based on test results.

Other IT-Related Activities:

We conducted internal testing for all roles Requestor, Admin, Department Head, and Printer to ensure proper data flow. This week taught us the value of continuous testing and how each part of the system supports the LGU workflow.
